

## Downloading Zoom.

You could watch this ..... **you should skip the ad.**

<https://www.youtube.com/watch?v=fVu9BILRkww>

You could search the internet 'Download Zoom for ...' and click on the choice which matches the laptop, phone or tablet computer that you have.

If you are an Apple user, iphone, ipad or Mac, search 'Download Zoom for Apple'.

If your email is Outlook or you have Windows or Word, search for Download Zoom for Windows' or 'Download Zoom for Microsoft'

You will know that you are successful if you find an icon which looks like this...

Click on this icon and you will get a screen like this:

If you have agreed a time for your meeting, look at the email you have been sent by the organiser of the meeting.

Either click the link or note down the id and password.

Clicking the link should let you enter the meeting.

If it doesn't work, click 'Join' and enter the id and password.

It's useful for the first time to have your phone handy so the person at the other end can help you with the video or microphone.
